Let's get the real meaning in ALL anti-Trust cases - The market place is where these companies must and should compete - NOT IN THE COURTS - Microsoft wins with consumers - making a farce out of these anti-competitive lawsuits !!!!!!!

the Wall Street Journal said the biggest asset AOL has is what AOL hopes to get from suing Microsoft - I hope our legal system will throw this case and any others OUT and bring status back to our legal system.

Thank you - Brig Gen William J Meng,
